Gulf Savannah Overview

The Gulf Savannah traverses a diversity of stunning scenery from Cairns to Darwin. Over 17 days we witness the best of the Northern Territory's 'Top End' including Litchfield & Kakadu NP, Nitmiluk (Katherine) Gorge, Bitter Springs, Limmen NP and the Lost City, Boodjamulla NP and Riversleigh, as well as Burketown's expansive salt pans and walking through ancient lava tubes at Undara. We've crafted the best, most comprehensive tour from available opportunities and extensive research to bring you the best Gulf Savannah experience possible!

Key

B: Breakfast **L:** Lunch **D:** Dinner

H: Hike Shoes **T:** Togs **S:** Shops **W:** Washing Facilities

Itinerary

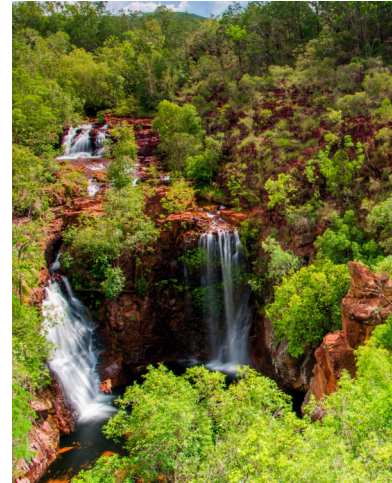

Day 1 (LD) Crab Claw Island
Pickups starting at 600am. We head straight to the action at Top End Safari Camp. Here you go on airboat tour through famous Sweet's Lagoon, as well as a larger houseboat cruise. You will witness the massive rescue crocs being fed before being flown over the floodplains in a helicopter. Tonight, we camp at a scenic campground on the ocean. We have an easy start to the tour and share dinner out as a group tonight.

Day 2 (BLD, HTW) Batchelor
Today we head into Litchfield National Park. Litchfield is a stunning park in the NT's north-west, rich with stunning waterfalls that plunge into magical swimming holes! We pull in to check out and swim at Wangi Falls & Buley Rockhole and pass by some amazing & very picturesque termite mounds! Tonight, we camp just on the outskirts of the park.

Day 3 (BLD, HW) Cooinda
This morning we head east into the world-famous, Kakadu National Park! On the way to camp, we'll check out the stunning Burrungkuy (Nourlangie) Rock Art. We camp for 2 nights giving us time to explore! Tonight we have a special treat for you!

Day 4 (BLD, HW) Cooinda
With an early start (no tent pack down today), we head to Ubirr Rock to see incredible rock art and walk to the lookout in the cool. We will swing by the famous Cahill's crossing and then head back to camp to the incredible Warradjan Cultural Centre. To finish the day, we head out on Ngurrungurrudjba (Yellow Water) for a sunset cruise and to see crocs, buffaloes and birds play in a wetland paradise! *The order of activities in Kakadu may change, depending on what timing is best.*

Day 5 (BLD, HT) Katherine
A nice cruisy day today, we head south out of Kakadu and over into Nitmiluk (Katherine) Gorge National Park. On our way there we will pull into historic town, Pine Creek. We'll also check out one of the stunning local waterfalls. This afternoon we will set up camp early

and have some time in the afternoon to do one of the local hikes in Nitmiluk NP. It can be very hot, so timing your walks is critical; early morning and late afternoon are best.

Day 6 (BLD, HS) Katherine
This morning you will have time for some more walks in the cool of the day. We will pop into town in the heat of the day to do some shopping. We finish the day off with a 3.5-hour Nitmiluk Gorge cruise while enjoying a setting sun and a 3-course meal! Cruising through the gorge, we can hear all the wonderful sounds of the local wildlife.

Day 7 (BLD, W) Mataranka
Today we make the short drive to Mataranka. On the way, we pop into Top Didj Art Centre, a fantastic facility with incredible local art. Mid-morning we have a cultural tour at Dalabon ACE with an incredible story teller. Here you will be introduced to the local culture and experience cultural activities including spear throwing, painting, firefighting and didgeridoo playing. We then make tracks to Mataranka and will setup camp early! We are here for 2 nights. This will be a good chance to do washing and reset. Tonight, we camp right near the natural, and stunning Bitter Springs.

Day 8 (BLD, TSW) Mataranka
Today will be a nice, slow day! This morning we will visit the Elsey Cemetery & Homestead (an immaculate replica), based off the 1982 film 'We of the Never Never'. From here we can stroll down to Mataranka Springs for a dip. We will return to camp and put our feet up for the day. From camp you can stroll down the road and soak your body in the hot thermal pools!

Day 9 (BLD, H) Munbililla
We have an adventure ahead of us today, with some rough dirt roads ahead in Limmen NP. Time permitting, we will check some sites in Elsey NP on the way out of town. Closer to camp we will visit Roper Bar, the famous crossing point of Leichardt's overland party in 1845.

Day 10 (BLD, HT) Cape Crawford
Nudging deeper into Limmen NP today, we pull into Lomariem Lagoon nice and early to do a little wildlife & bird spotting. A stunning lagoon filled with water lilies, it bares resemblance to many of the lagoons in Rinyirru (Lakefield, Qld) & Kakadu National park. We pass Towns River Crossing. We then visit the gorgeous Butterfly Falls to cool down! Our last stop of the day is the stunning sandstone formations that make up the Southern Lost City and hike around the loop track. Tonight we camp just south of Limmen NP.

Day 11 (BLD, HTSW) Hell's Gate
Today is a long transit day on some stunning outback roads that run parallel to the Gulf of Carpentaria. We stop in Borroloola to do some shopping. We cross two beautiful rivers today; the Calvert & Robinson Rivers. Later today we make camp at the popular Hell's Gate. Tonight, we will treat ourselves after a big day and head to the station house for dinner!

Day 12 (BLD, H) Boodjamulla NP
This morning, we might take a peek at Hell's Gate as the sun grows over the horizon. We then weave our way through some more stunning outback & station roads towards Boodjamulla NP. We should have some spare time this arvy to either jump in the kayaks or go for a hike! This place is truly breathtaking!

Day 13 (BLD, HT) Boodjamulla NP
Today we have a few exciting activities up our sleeve. We start the day by heading an hour south to the world-famous Riversleigh Fossil Site #4. Here we take a short, easy walk through the fossil trail. David Attenborough is quoted as saying this site is one of four of the most important fossil deposits on the planet. Whilst the fossils aren't huge, the sheer number of fossils here has helped describe and fill in many gaps in our archaeological understanding. Heading back to camp, you will have plenty of time to go for a walk or hire a kayak near camp and paddle up the creek. On the day we may shuffle these depending on what works best.

Day 14 (BLD, SW) Burketown
We drive a short way into Burketown, checking out the old bore on the way into town. We will continue to explore town and the museum afterwards and head around town to see some of the historic sights and set up camp. This afternoon we will head out for a stunning sunset.

Day 15 (BLD, S) Leichardt Lagoon
This morning, we take turns at getting in the air over Australia's largest aggregate salt pans! We then head east and visit Camp 119, the northern-most point of the ill-fated Burke & Wills expedition. We'll do some sightseeing around Normanton and use the shops here. Tonight we camp at a nice quiet camp outside of Normanton.

Day 16 (BLD) Undara
This morning we cover some distance, heading east across the Savannah Way. We'll pop into a few sites on the way inc. the Ted Elliot Mineral Collection and the old Blackbull Railway Station, to discover some of the amazing history of this rail line from "nowhere to nowhere", built in the late 1800s. Later this arvy we will pull into Undara Volcanic National Park. This evening we will head out together and enjoy a final meal as a group!

Day 17 (BL, H) Cairns
Our last day has arrived, but not without another incredible experience. Early birds can head up the hill from camp to watch the sunrise over the vast plains of Undara. This walk is an easy 1.5 km return walk. At 8am we explore the majestic Undara Lava Tubes with excellent interpretation from a local Savannah Guide. After the tour we will head back to Cairns, stopping on the way for a quick bakery lunch. Hold back the tears if you can, but there will be tissues on board! Drop offs today can be expected around 5pm.
